🎉 FREE SOFTWARE DEVELOPMENT WORKSHOP

🚀 "CODE YOUR FUTURE"

Transform Your Career in Just 7 Days - Absolutely FREE!

🎯 Why This Workshop is Perfect for You?

🎓 What You'll Learn	🚀 What You'll Build	🏆 What You'll Gain
🖥️ Full-Stack Development	🌐 Live Portfolio Website	⚕️ Industry-Ready Skills
⚛️ React & Firebase	📱 Task Management App	🔗 Professional Network
🎨 Web Development Basics	🔥 Real Database Integration	💼 Job-Ready Portfolio
🇳🇵 Nepal IT Market Insights	📝 Tech Resume	🌟 Career Clarity

📚 COMPLETE COURSE SYLLABUS

📅 7-Day Learning Journey

Day	Topic	Duration	Key Deliverables
1️⃣	🏁 Introduction & Domain Registration	⏱️ 90 mins	🌱 Introduction & 🌐 Domain Registration
2️⃣	💼 Industry Insights, Env Setup & Basics (HTML, CSS, Git)	⏱️ 120 mins	📊 Industry Insights & 🛠️ Dev Environment Setup
3️⃣	🖼️ Portfolio Strategy & Coding	⏱️ 90 mins	🎨 Portfolio Building
4️⃣	📝 Portfolio Review & React Intro	⏱️ 90 mins	📝 Tech Resume & 🔍 Portfolio Review
5️⃣	🌐 Portfolio Website Development	⏱️ 120 mins	🚀 Live Portfolio with .com.np Domain
6️⃣	⚛️ React Frontend Development	⏱️ 90 mins	✅ Interactive Task Manager App
7️⃣	🔥 Firebase Backend Integration	⏱️ 90 mins	🏆 Complete Full-Stack Application

🎯 QUICK WORKSHOP OVERVIEW

🚀 What Makes This Workshop Special?

🎨 100% Hands-On Learning

- No boring theory - dive straight into coding
- Build real projects
- Live coding sessions with expert guidance
- Interactive Q&A and problem-solving

🇳🇵 Nepal-Specific Content

- **Salary insights** for different tech roles
- **Top companies** hiring in Nepal
- **Job market trends** and opportunities
- **Remote work** strategies for Nepali developers

🆓 Completely FREE Resources

- **Free .com.np domain** for your portfolio
- **GitHub Pages hosting** for portfolio
- **Firebase database** for your app
- **Docs** to all materials

🏆 Real-World Projects

- **Professional portfolio website**
- **Full-stack task management app**
- **Database-driven application**
- **Responsive, mobile-friendly design**

🛠 TECHNICAL SKILLS YOU'LL MASTER

🎯 Frontend Development

- **HTML5** - Modern semantic markup
- **CSS3** - Responsive design & animations
- **JavaScript** - ES6+ features and DOM manipulation
- **React** - Components, state, and props

⚜ Backend Development

- **Firebase** - Real-time database
- **Firestore** - NoSQL database operations
- **CRUD Operations** - Create, Read, Update, Delete
- **API Integration** - Connecting frontend to backend

🚀 Development Tools

- **Git & GitHub** - Version control and collaboration
- **VS Code** - Professional code editor
- **Chrome DevTools** - Debugging and optimization
- **Terminal/Command Line** - Essential developer skills

🌐 Deployment & Hosting

- **GitHub Pages** - Free static site hosting
- **Domain Management** - Custom .com.np domain setup
- **DNS Configuration** - Professional domain linking

🎓 PERFECT FOR BEGINNERS

✅ No Prior Experience Required

- **Complete beginners** welcome
- **Step-by-step guidance** for every concept
- **Beginner-friendly explanations** of technical terms
- **Practice exercises** to reinforce learning

✅ Suitable for All Backgrounds

- **Engineering students** looking to build practical skills
- **Non-tech graduates** wanting to enter IT
- **Career changers** exploring software development
- **Anyone passionate** about technology and coding

✅ Flexible Learning Format

- **Online sessions** - Join from anywhere
- **Recorded sessions** for later review
- **Interactive workshops** with live coding
- **Community support** throughout the journey

🏆 WORKSHOP OUTCOMES

🎯 By the End of 7 Days, You'll Have:

🌟 Professional Online Presence

- ✅ **Live portfolio website** with custom domain
- ✅ **GitHub portfolio** with multiple projects
- ✅ **Professional resume** tailored for tech jobs

🖥️ Technical Skills

- ✅ **React development** fundamentals
- ✅ **Database integration** with Firebase
- ✅ **Responsive web design** principles
- ✅ **Version control** with Git/GitHub

🚀 Real Projects

- ✅ **Full-stack task management app**
- ✅ **Database-driven application**
- ✅ **Mobile-responsive portfolio**
- ✅ **Professional development workflow**

🎓 **Career Readiness**

- ✅ **Industry knowledge** about Nepal's IT market
- ✅ **Job application strategy** for tech roles
- ✅ **Network connections** with fellow developers
- ✅ **Clear career roadmap** for continued growth

🎯 WHO SHOULD ATTEND?

🎓 Students & Graduates

- **Engineering students** (any branch)
- **IT/Computer Science** students
- **Recent graduates** looking to enter tech
- **Anyone with curiosity** about software development

💼 Career Changers

- **Professionals** from other fields
- **Business graduates** interested in tech
- **Creative professionals** wanting digital skills
- **Entrepreneurs** needing technical knowledge

🌱 Complete Beginners

- **No coding experience** required
- **First-time programmers** welcome
- **Self-learners** seeking structured guidance
- **Anyone passionate** about technology

🏷️ WHAT YOU NEED TO BRING

🖥️ Technical Requirements

- **Computer/Laptop** with internet connection
- **Google Chrome** or Firefox browser or so on.
- **Willingness to learn** and practice
- **2 hours daily** commitment for 7 days

📱 Accounts to Create (Free)

- **GitHub account** for code hosting
- **Google account** for Firebase services

- **register.com.np** for free domain
- **LinkedIn account** for professional networking

🧠 Mindset Requirements

- **Growth mindset** - ready to learn from mistakes
- **Patience** - coding takes practice
- **Curiosity** - ask questions and explore
- **Persistence** - don't give up when things get tough
